RE: Response to Initial Review Amendment to Permit M/049/009; Dry Stack Tailings

Dear Mr. Hedberg;

Enclosed please find responses to all of the questions raised and requests for additional information contained in your letter of October 22, 2001 regarding the above referenced document. Also enclosed is a revised copy of the original amendment showing changes in bold with strike through. Paul Spor is sending the certified signed copy of the Blue Rock Excavating rate schedule under separate cover to Tom Munson. We are not certain which as-built drawing copies are requested (item 105.2) and look forward to further conversations with Division staff to better define your requirements.

Upon your acceptance of the changes, two copies minus bold and strike out will be forwarded. Please feel free to contact either Paul Spor of Tintic Utah (435) 433-6606 or myself with any of your questions. We look forward to working with your Department to complete the Amendment process.

Sincerely,

Tom Gast
Principal
